Fresh Outrages

Mersina, April 27.—Fresh outrages are to-day being perpetrated in Adana and other towns to the east and north. What little remains of the Armenian

Rechad has had practically no experience in governmental affairs and for twenty-five years has been almost a prisoner in the Yildiz Klosk. It is conceded that he will do whatever the Young Turks demand of him as he is lacking in the craftiness and initiative of Abdul.

The Shelk-Ul-Islam, who is the head of the Mohammedan Church, based his decree approving of the deposition on the ground that Abdul Hamid violated the Mohammedan religion by many inimicable acts and that therefore it was not an irreligious act to dethrone him. The session of the National Assembly which began at noon yesterday was resumed to-day. It had believed that Abdul's fate really amounted to a trial of the Sultan. The charges ed to a trial of the Sultan. The charges were that his supremacy was harmfu to the church, contrary to the sacred law and opposed to by the Turkish people. Abdul is still under guard in the Yildiz Klosk. His future fate is unknown. It is certain that he will be stripped of his fortune, estimated \$90,000,000 and his life is believed

The Cabinet of Tewfik Pasha is still in office. Its resignation handed in yesterday, was withdrawn at the re-quest of Cheftek Pasha. Just as soon s more urgent matters are disposed f a new ministry will be appointed. Among the Sultan's household who

The dispatches mentioning the fact do not make it clear whether guilty of being Reactionaries or whether the soldiers themselves are Reactionaries and have mutinied against the Young Turks. It is feared that the latter is true, in which event a punitive expedition will be dis-

patched to the scene at once To-day's action is almost wholly po-Itical in its nature. At Sunrise to-morrow unless something unforeseen occurs to alter the present plans, the formal and religious ceremony will take place according to the old Turkish custom. At this ceremony the proclamation announced by Parlia-ment to-day, will be read and the new reign will date from to-morrow.

REIGN OF DESPOT. Abdul Hamid's deposition today ends a reign of nearly 33 years. He cended the throne on August 31, He succeeded his elder brother, Murad V., whose deposition was based on grounds of insanity. Murad died Au-gust 29, 1904. (Special from United Press.) Washington, April 27 .- In a vigorou peech today Senator Scott, of West Virginia, announced to the Senate his opposition to any changes in existing tariff rates on coal, lumber, iron and steel, hides, wool, oil and pottery. In these things his State is greatly interested and he declared he would stand for no reduction in any of these schedules and would work and vote against

In declaring that he was a "standpatter" he said that he had the official support of the Legislature of West Virginia. It was not only for the inerests of West Virginia, however, that he demanded the retention of present rates but for the South and the Union as a whole

"The South land," he said, "sees ahead of her nothing but prosperity under a protective tariff. At no disunder a protective tariff. At no distant day you will find the people of the South sending to Congress who will be the strongest protectionists the country has ever produced."

He gave figures to show the wonder-ful development of the South since 1880 under a protective tariff and predicted an even greater future from the continuation of that reliev

tinuation of that policy.

"Removing the duty on coal," he de-clared, "would render a half dozen of our western States dependent on a foreign country for a necessity of life; would close down coal mines in many

States; would depopulate many towns dependent upon this industry."

Speaking for free hides the Senator said that the cattle raisers in West Virginia had informed him that this Virginia had informed him that this would mean a loss to them of from \$2 to \$4 on every beef they sent to market. In urging a duty on petroleum the Senator said: "The people of West Virginia demand a duty on oil. They do not hold that the Standard Oil Company is a great monopoly. They see the development this corporation has brought to the State and they desire that it shall be fairly treatthey desire that it shall be fairly treated. Today there are 13,000 oil wells in West Virginia being operated and producing 25,000 barrels of oil per day at a value of \$1,78 a barrel.
